## Launching a Quiz, Survey, or Discussion:

1. Log in to <https://create.kahoot.it/#login>
2. Select the game you wish to launch
3. Select your display options and click Launch

\*\*If you open up **Advanced Options**:

Currently Automatically move through questions DOES NOT keep a record of the game for you to get results back from.

Also, it is recommended NOT to place a video as your cover if you also have a video as a question. They tend to overlap making it difficult to understand.

## Player Access:

1. Go to <https://kahoot.it/#/> in any web browser (on any device or computer)
2. Enter the **Game Pin**
3. Enter **Your Name**
4. Watch the projector to see the questions and answers, using your device or computer to answer using the corresponding color/ shape.
5. You get more points for speed and accuracy.
6. Once all players have answered, you will see the overall scoreboard.
7. If one player doesn't answer, then you have to wait for the time to run out.
8. At the end of the game, you will be asked to rate the game.
